# The Authentic Leadership Project

## COMMONLY ASKED QUESTIONS

### What is the schedule?

The project will consist of 3 modules, each focuses on a different leadership theme. We will kick-off the project with a weekend event (7-8.3.2020) in which we will get the chance to get introduced to the project and to each other.

Each of the 3 modules will consist of half-day (4 hours) sharing new content and setting up personal goals for the time ahead; looking and challenges and opportunities. Then there will be three consecutive Thursdays in a row we will meet for a session of mastermind, coaching and solving occurring challenges.

There will be a short break between each module in which personal and group projects will be assigned.

### What is the format of the meetings?

Every module will contain a long intro session and three 1.5-hour meetings. The longer sessions are designed for deep exploration with the coaches and guest coaches, and the shorter sessions are designed for group sharing and peer-to-peer mentorship. The coaches will be present for both.

### Who is this project for?

The content is specifically designed for aspiring leaders, startup founders and entrepreneurs, people holding leadership roles and people managers who want to become better leaders, be of service and take their career to the next level.

### How much does the program cost?

The cost is only 850 euros for the full 3 months with 1 hour of personal coaching included.

This is a pioneering pilot project - your feedback and participation during the project are vital, in order to best serve your needs during the project. This is why we are offering you such a great price for such great value.
